SPONSORS

MAIN SPONSOR
CC 5. Cyber Physical Manufacturing Enterprises

MAIN SPONSORING TECHNICAL COMMITTEES
TC 5.1. Manufacturing Plant Control
TC 5.2. Management and Control in Manufacturing and Logistics
TC 5.3. Integration and Interoperability of Enterprise Systems (I2ES)
TC 5.4. Large Scale Complex Systems

CO-SPONSORING TECHNICAL COMMITTEES
TC 1.3. Discrete Event and Hybrid Systems
TC 4.2. Mechatronic Systems
TC 4.3. Robotics
TC 6.4. Fault Detection, Supervision & Safety of Techn. Processes-SAFEPROCESS
TC 7.1. Automotive Control
TC 7.4. Transportation Systems
TC 7.5. Intelligent Autonomous Vehicles
TC 9.2. Social Impact of Automation

INCOM 2021 BUDAPEST

17TH IFAC SYMPOSIUM ON INFORMATION CONTROL PROBLEMS IN MANUFACTURING

INFORMATION CONTROL IN THE CYBER-PHYSICAL ENTERPRISE: TECHNOLOGICAL BREAKTHROUGH VS. CULTURAL REVOLUTION

CALL FOR PAPERS

WWW.INCOM2021.ORG
Contact: info@incom2021.org

Organized by:
Számkönyv Kft.
Szentgyörgyi Alajos Könyvtár és Multimedia Zrt.
The 2021 IFAC Symposium on Information Control Problems in Manufacturing (INCOM2021) represents the 17th event in the rich tradition of IFAC in manufacturing sciences and information technologies.

The cyber-physical era, frequently called the fourth industrial revolution (Industry 4.0), i.e., the intersection of the two worlds in an unprecedented extent – like in other fields – fundamentally influences the modeling, management, and control of the production structures from the processes/machines through the manufacturing systems and enterprises to the level of production networks, including logistics.

The symposium aims to provide a forum for exchanging knowledge, reviewing and discussing theoretical advances, research results, and industrial experiences in this exciting and highly relevant field.

Authors from academia and industry are encouraged to join the event and share their research results and empirical insights focusing on one of the following themes:

- Digitalization for Modelling and Controlling Smart Manufacturing Systems and Networks
- Modeling, control, and optimization of smart production systems and networks
- Simulation, control, and monitoring of resilient production systems and networks
- Operations management in production systems and logistics
- Lifecycle management of product-service systems and technologies
- New trends in enterprise modeling and information systems
- Human and social factors in production systems and networks
- New advances in robotics and autonomous systems
- Advanced reliability, maintenance, and safety engineering and technologies
- Sustainable production, circular economy
- Biological transformation in production
- Human-robot cooperation
- Cyber-physical production and logistic systems
- AI and machine learning applications in production and logistics

The program of INCOM 2021 will include regular, invited, and special sessions, workshops and tutorials.

**REGULAR SESSIONS**
Authors are invited to submit draft papers reporting original research of theoretical or applied nature. Final manuscripts are limited to 6 pages.

**INVITED SESSIONS**
Invited sessions consist of papers focusing on targeted subjects and presenting a unifying theme. Invited session organizers should submit an abstract that summarizes the aim and the content of the invited session. If at least 5 papers are accepted, the session is included in the symposium program as an invited session, otherwise, the papers will be included in regular sessions.

**SPECIAL SESSIONS**
Special sessions offer a venue for the presentation of topics of special academic, social or industrial interest, such as emerging research areas or the most recent trends in manufacturing engineering. The format of special sessions is more flexible; it allows a panel discussion, led by the session chair(s), to motivate the exchange of opinions among presenters and participants.

**OPEN INVITED TRACKS**
Open Invited Tracks consist of regular papers focusing on targeted subjects; they have no upper limit on the number of papers; only those tracks having gathered more than 5 papers will be considered.

**PAPER SUBMISSION**
All manuscripts as well as Invited/Special Session proposals and Open Tracks must be electronically submitted through the PaperPlaza Conference Manuscript Management System at: [https://ifac.papercept.net](https://ifac.papercept.net)

The list of accepted session proposals is available at: [https://incom2021.org/call-for-papers.html](https://incom2021.org/call-for-papers.html)

Guidelines for the preparation of manuscripts are provided on the IFAC website:
[http://www.ifac-control.org/events/author-guide](http://www.ifac-control.org/events/author-guide)

All papers will be accepted with the understanding that they will be presented at the conference.

At least one author of each accepted paper will be required to register for INCOM2021 before uploading the final version.

**COPYRIGHT CONDITIONS**
All publication material submitted for presentation at an IFAC-sponsored meeting (Congress, Symposium, Conference, Workshop) must be original and hence cannot be already published, nor can it be under review elsewhere.

The authors take responsibility for the material that has been submitted. IFAC-sponsored conferences will abide by the highest standard of ethical behavior in the review process as explained on the Elsevier webpage ([https://www.elsevier.com/authors/journal-authors/policies-and-ethics](https://www.elsevier.com/authors/journal-authors/policies-and-ethics)), and the authors will abide by the IFAC publication ethics guidelines ([https://www.ifac-control.org/events/organizers-guide/PublicationEthicsGuidelines.pdf](https://www.ifac-control.org/events/organizers-guide/PublicationEthicsGuidelines.pdf)).

Accepted papers that have been presented at an IFAC meeting will be published in the proceedings of the event using the open-access IFAC-PapersOnLine series hosted on ScienceDirect ([https://sciedirect.com/](https://sciedirect.com/)). To this end, the author(s) must grant exclusive publishing rights to IFAC under a Creative Commons license when they submit the final version of the paper.

The copyright belongs to the authors, who have the right to share the paper in the same terms allowed by the end-user license, and retain all patent, trademark and other intellectual property rights (including research data).

**POST-SYMPOSIUM PUBLICATIONS**
The IPC of INCOM2021 may screen presented papers with the purpose of recommending the authors to consider significantly extended versions in one of the IFAC Journals and other high-ranked journals:

- Annual Reviews in Control
- Engineering Applications of Artificial Intelligence
- International Journal of Computer Integrated Manufacturing
- Computers & Industrial Engineering
- Journal of Industrial and Intelligent Information
- Enterprise Information Systems
- Journal of Intelligent Manufacturing Systems
- International Journal of Production Research
- Production

**VENUE**
In Budapest, there are ruins from the times of the Roman Empire as well as from the Middle Ages. Its main characteristics reflect the atmosphere of the end of the 19th century when the millennium of the Hungarian State was celebrated. It boasts a number of museums, theatres, concert halls, a lot of restaurants and other amenities.

Several baths and thermal waters of various medicinal springs are also at the disposal of visitors.
